

Another Day (Key E<sup>b</sup> – F)

Verse 1:

One more day has come and gone Another day I've been living so wrong

And I can't seem to shake these thoughts I have

I should've used this day for Him But instead I walked around in sin

I want to have the joy that others have

Chorus:

I can't wait another day. I can't wash my own sins away

Tomorrow might not come, but I know that there is One

Who can save my soul and take me to another day

Verse 2:

One more day and I'll get right That's what I say when I'm fight'n the fight

Of Heaven or Hell, the choice seems so clear But it don't matter how much I try

It's hard to move this sinful pride My heart beats fast as I feel Him drawing near

Bridge:

So much time has wasted. Cover me with the blood You shed
