Chorus 1:

No greater love is there than ours, a Christ like love joined by His power, now as one forever we'll stand, you are my joy and my best friend. No greater love is there than this honored by God, Holy and blessed.

Verse 1:

I had a longing, I had a void, in search for answers I called on the Lord, I prayed for someone who'd love me for me, and now you're here standing by me.

Verse 2:

I sought the Lord for one like you, you're all I prayed for, sincere and true, I praise the Lord for answered prayers. We're now together; God brought us here.

Chorus 2:

No greater love is there than ours, a Christ like love joined by His power, now as one forever we'll stand, you are my joy and my best friend. You make me smile you're strength in my trials, no greater love is there than ours.
