

On the Other Side

Kenneth Rhoades/New Desire Publishing/BMI

As I walked through the years in my life
I face trials so much trouble and strife
But I know my hope is on the other side
The things we see but we don't understand
The burdens so great lifted only by His hands
Until one day when we awake on the other side

Chorus:

On the other side I'll see Jesus
On the other side sweet peace at last
Where satan, he can not hinder anymore
On the other side the gates swing open
On the other side I'll enter in
And I'll reside with Jesus my King
Just on the other side

Sorrows down here, they're more than a few
But there's a place just for me and for you
It's in that city over on the other side
And oh what beauty our eyes shall behold
As we step onto that street of pure gold
My Savior's there, He's waiting on the other side

Repeat Chorus
