Verse 1:

Storm Clouds in the distance but I'm not one to mind
The thunder rolls and the lightening flashes just before my eyes
Through the darkness I can feel a peace
Cause I see my Master holding me

Chorus:

And I'm Still Standing though the storm is all around
And I will still be standing when my knees fall to the ground
God gives me strength that only He could
And I know it's for my good
So I'll stand as the rain falls down

Verse 2:

Job had lost everything that storm took all he had
And there he was with just three friends and all they saw was bad
But God had a plan, He would use that man
to bring comfort to my weary soul
