

# The Three Little Pigs

## Haley Morgan Smith

La, La la.....

Verse 1: Once upon a time there were three little pigs who traveled all around  
But the bad news is the big bad wolf tried to track them down  
The first little pig wasn't really that smart, he wasn't that bright at all  
Just to show off his stupidity he built his house of straw  
When the big bad wolf came along he said I'm gonna blow your house down  
The little pig said "no you won't." Then he saw his house fall on the ground

Verse 2: The second little pig was a little bit lazy instead of using bricks  
He decided to take the easy road out so he built his house of sticks  
When the big bad wolf came along he said I'm gonna huff and puff  
Then suddenly the little pig realized that sticks are just not enough

Verse 3: The third little pig was a Jesus freak so he had no reason to mock  
He took his brothers in then he built his house on a rock  
When the big bad wolf came along he said I'm gonna blow your house down  
The house wouldn't budge, the wolf looked up and saw that they're on higher ground

Chorus 1: And God was proud then, isn't that neat  
He gave His Son, isn't that sweet  
He gives us life if we believe that He rose again  
And we can all live singing la, la

Verse 4: So all you people out there read your Bibles and don't be lazy  
So when the big bad devil comes along he'll try to drive you crazy  
The three little pigs is a really dumb story, but there's a lesson to be learned  
Build your house on the Rock and your life will stand firm

And God will be proud then, isn't that neat  
He gave His Son, isn't that sweet  
He gives us life if we believe that He rose again  
And we can all live singing la, la,

We can all live (yeah) if we live on the Rock  
And we can all live if we trust in God  
And we can all la, la
