

There's Something About That Word Grace
Writer: Stephen Phillips
Publisher: Leemike Music Publishing/BMI

There are so many words we could say in our language
That would surely help to lighten up a brother's heavy load
But when what we say don't seem to help them in their time of need
There's really only one word that could bring sweet victory

Chorus:

There's something about that word grace
It takes my heart to another place
Where a beggar without a thing
Can find favor with a King
And He's promised soon we'll see Him face to face
There's something about that word grace

Love is so misused in this world that we live in
And peace is just a word they say to satisfy their soul
But if they could only see
The price You paid on Calvary
They too would have to lift their hands up to You and say

Repeat Chorus

Where a beggar without a thing
Can find favor with a King
And He's promised soon we'll see Him face to face
There's something about that word...

Grace, Grace God's grace

There's something about that word grace
Oh yes, there's something about God's grace
